SLIGHT RALLY AT CLOSING

Mysterious Southern Pacific Deal Causes Activity in Short Stock.

(By Associated Press.)

NEW YORK, July 14.—To-day's stock
market proved a small affair from any
point of view. Fluctuations were generally narrowed and at times very irreg-ular. A few stocks reflected operations ular. A few stocks reflected operations by an organized market following, and there were rumors circulated to afford explanations suitable to the price move-ment in the stocks. Those did not prove very impressive, and the market fell into aning neglect as the day pro-

disposition to the market feithing increasing neglect as the day progressed.

Heavy buying of Southern Pacific in the morning was explained as being due to the expectations of a coming deal by which the stock was to benefit, but which was viaguely described as heing neither a dividend declaration nor stock subscription rights. The many reports regarding the Northwestern grangers circulated during the week resolved themselves into a wide range of conjecture as to the disposition to be made of Union Pacific's proceeds of the Northern Scurities dissolution. United States Steel was sold freely early in the day and this was supposed to be the disposit of some large lines accumulated on Monday.

The tone of the time money market conlinued to show a firmer tendency, the rate for 5 months' losing working shove 4 per cent. The opinion was heard in honking circles that money rates are likely to work closer in the near future, and this prospect is believed to account for the disinclination to extend commitments in the stock market.

The dull market did not tend to increase the weakness, and there was a disposition towards recovery from the level of the first hour. The liregular manner of the recovery continued up to the close.
